

Healblend Juice Therapy

Immune Juice for Kids 1 year+

- 4 oz Juice a Day
- 2 beet slices
- 1/2 carrot
- 1 orange

With this Juice your kiddos will strengthen their immune system. Orange, carrots and beets are full of nutrients and vitamins to support our immune system. Other than helping our kiddos with their immune health, this is delicious and gives them energy (YES, MORE ENERGY!!!). But it's a great and healthy energy. They will develop better focus and less sickness. You can give this every day for a week and then alternate with other juice.
